YOUR IMPACT:

Your gift of \$25,000 expands our ability to support the delivery of a breadth of experiences in programs that meet girls where they are, connect to interests they already have, and expand their horizons into areas they may never have imagined existed: from exploring STEM fields leading to higher-paying careers, to building practical money management skills and confidence; from fun physical activity to positive body image and media savvy; from partnering with schools on college readiness and preparation to visionary future planning.
